

Laser Speed 32Gbps

Display Port 1.4 Optical Cable **NEW**

■ Designed for 8K Digital Signage Display, 8K Projector and e-Sports.

■ Highest specification supported 8K/30p 4:4:4 (32.4Gbps)*

■ Up to 100m in length

● Attention when connecting

Cable has direction to use.
Please connect "Source" and "Display" to correct equipment.
Connecting to opposite direction will cause malfunctioning.

Product Name	AIM DP1.4 Optical Cable
Model Number	DP14-10 (10m), DP14-15 (15m), DP14-20 (20m), DP14-30 (30m) DP14-50 (50m), DP14-70 (70m), DP14-100 (100m)
Maximum Resolution	8K/60p*1 8K/30p 24bit (4:4:4) 4K/120p 24bit (4:4:4)
Connector Size	W20.0mm×H12.9mm×D36.5mm
Outer Cable Diameter	5.0Φ
Bend Radius	20mm
Connector Allowable Tension	20kg (200N)
Cable Allowable Tension	80kg (800N)
Cable Colour	Black
Cable Configuration	Hybrid of Quartz Fiber and Copper (Flexible)
Power Supply	External power supply is not required

Model number	Length
DP14-10	10m
DP14-15	15m
DP14-20	20m
DP14-30	30m
DP14-50	50m
DP14-70	70m
DP14-100	100m

*1 DSC compression is prescribed by the display port standard for 8K/60P transmission.
Cable sends compressed signal from "Source" to "Display".

* We do not guarantee connectivity with all commercially available devices. Design and specifications are subject to change without notice.

[Example of Use]
